

Dear Iga,

Happy New Year! Best Wishes to you and all at Action4London for healthy, happy and prosperous year!

I've attached some pictures for you.

May I take the opportunity on behalf of Finsbury Park Homeless Families Project staff and users to say huge "Thank you" for the little happiness you brought in the children and their parents hearts during the festivity season.

Here are some of the quotes that the parents have shared with us in the first week after the Christmas break:

- "I love my animals" Kiril, 4 years old boy

- "My daughter loves her teddy, she takes it all around the house and goes to bed too." Mother of Shalom, 3 years old girl

- "My son plays all day with his steering wheel, sings along, push buttons and say/copy letters and words. The teddy bear is always fed by my son and goes to bed together" Mother of Zion, 3 years old boy

- "I love my car, is big. I am busy with my car." Noel, 4 years old boy

- "Thank you! It is very much appreciated!" Father of Shyne, 4,5 years old girl

- "The presents are useful, age appropriate and I like the fact that the pack is made of a toy/game, book and cloths." Collective feedback from few parents.

- "My daughter wears her dress all the time, she just lives it." Mother of 5 years old girl

Thank you All again

Kind Regards,

Mariana
