Dear Sir/Madam,

We have been working in partnership with Action 4 London since February 2013.

We successfully completed a restoration project that looked to rejuvenate a shelter for some of the most disadvantaged members of the London community with over 20 volunteers from Action4London. We were incredibly impressed with the management team in place, the way they conducted themselves and the quality of work that was produced.

Action 4 London have a rare, genuine desire to benefit local communities and it was a refreshing experience to work with them.

I would welcome working with them again!

Kind regards,

Nigel Barber
